quest for outer peace leads to an inner destination and an understanding that the path to peace in our world must begin with peace in our inner world.

Like spiritual seekers of old, Mony Dojeiji (Canada) and Alberto Agraso (Spain) left the comforts of the known – their careers, families, communities – to adopt the life of simple pilgrims, their belongings on their back. Serendipity would bring them together on the fabled 800-km Camino and, together, they would embark on a 5000-km, 13-month walk from Rome to Jerusalem, along a path more mystical than physical called the Way of the Soul, where they would each undergo a profound spiritual transformation.

Today, they use these experiences and continuing spiritual journey to create, illustrate and publish multi-language books and art that expand consciousness. Mony is a popular inspirational speaker, and TV host and producer. Alberto is an illustrator, visionary artist, and radio host and producer. Both are international award-winning authors of WALKING FOR PEACE, AN INNER JOURNEY, memoir of their pilgrimage.

A short talk about her life is followed by a performance of various chants.</p> <p>Andrea Gerhardt is a multi-instrumentalist, piano teacher and shiatsu therapist. She studied piano, flute and voice in Cologne, Germany and came to Canada in 1993 where she has been teaching and performing as a soloist and with various ensembles. In 2014 she became interested in Hildegard v. Bingen's music and memorized several of her chants. Merging the two worlds of music and healing has been the focus in recent years. This led to several performances of music meditations with musicians such as Debbie Danbrook, Shakuhachi and Michael Franklin, flute.</p> <p>Andrea became a member of the non-for profit organization "Music can Heal" in 2015 and performs in hospitals and for the Parkinson's Society.</p>

**4th Annual Conference
Sunday May 6th, 2018
Code's Mill, Perth
Agenda**

	 <p>Sarah Wibberley</p>	<p>Participants will be given some context on the sacred, shamanic landscape of Nature; as understood by the ancients and accessible by those of us in the modern age. Then they will be guided on a healing meditation to connect them to these restorative energies.</p> <p>Sarah Wibberley is an Avalonian Druid and Reiki Master offering classes on Reiki, Avalon spirituality and energy work. She also offers energy sessions and space clearing services, as well as creating sacred jewelry and photographing the sacred in nature.</p> <p>The shamanic/faery path of the British Isles combines living in harmony with Nature with Sovereignty: taking personal responsibility for your life. One of the main tenants of Avalon is to understand the world by asking lots of questions, a perfect combination of science and magic.</p> <p>Born in England, raised on the West Coast and called to Ottawa, Sarah was also called to the Avalon path in the early 2000s. After well over a decade of intensive study and her dedication to the pre-Celtic Goddesses, she is now a full time Druid and Pathwalker (in other words, agreed to do extra studying/work around spiritual safety).</p>
